

Sustainability in Steel Construction
ES CHARTER MEMBER

ASI Environmental Sustainability Charter
Certified Company
Nepean Building & Infrastructure
has achieved
ESC Band – Platinum

Date issued: 1 July 2018

Valid till: 30 June 2019

The ASI's Environmental Sustainability Charter (ESC) requires members of the Charter to be independently audited to the Environmental Management System annually to retain membership and to demonstrate continual improvement and culture change in environmental management of their business operations.

Member has demonstrated:

- Certification/compliance to ISO 14001 and an industry leader.
- All Charter commitments have been met.
- Evidence through all levels of the organisation of environmental awareness, continual improvement and ongoing initiatives.
